

## Product guide: Contempo Andhra Grey Limestone

- Appearance:** In all natural stone there will be variations in colour tones, shades and natural markings and they can display blemishes, veining and minor chips. These are natural characteristics and enhance the uniqueness of the product. We always recommend viewing the product before making a decision. You can do this at our indoor and outdoor show areas. We can supply full size samples for an additional cost to help give an impression of how your finished project will look.
- We regret that we cannot refund or exchange products, once they have been installed, on the basis of texture, colour variation or other natural occurring characteristics.
- Colour:** Contempo Andhra Grey Limestone will fade slightly after being exposed to the British weather over a period of time. This is natural and typical of this type of stone.
- Sealing and treating:** Colour-enhancers will help reduce fading of Contempo Andhra Grey Limestone, and can be re-applied after a few years to darken the colour of the product. You can apply this yourself or Kebur can pre-seal your stone for you for an additional cost.
- Installation:** We recommend that all natural stone is laid on a full mortar bed with a suitable sub-base, taking into account the ground conditions and planned usage. Contempo Andhra Grey Limestone should also have an SBR bond slurry mix or similar applied to the underside of the slab to help with adhering to the mortar. Contempo Andhra Grey Limestone should not be butt jointed. We recommend a minimum joint width of 5mm.
- There may be colour variations between batches of slabs. If laying from more than one pallet, mix slabs to ensure a consistent look.
- Maintenance:** We offer a range of sealers and cleaners you can use yourself. Never use acid based products for cleaning Contempo Andhra Grey Limestone. Always read the label and seek professional guidance.

If you have any further questions about installing or caring for Contempo Andhra Grey Limestone please contact one of our sales advisors who will be very happy to help you.
