

KEBUR
GARDEN MATERIALS

**PORCELAIN AND NATURAL STONE
COLLECTION 2020**

Create your dream garden

WHY CHOOSE KEBUR NATURAL STONE & PORCELAIN?

If you're transforming an outdoor space, you'll want to choose materials that you can enjoy for many years.

The choice can be a bit overwhelming, so we've put together this beautiful collection of porcelain and stone to bring something for every style and budget, and for both inside and out.

“
*Great service, fast
delivery, good prices.
Ticks all the boxes*”

CHRIS, TRUSTPILOT, FEBRUARY 2020

Products we know you'll love

We're here to help you create your perfect outdoor space. With our rigorous eye for detail, we're dedicated to bringing you materials that deliver on quality, style and value. This means we make sure our paving is produced ethically, to the highest technical standards and with minimal impact on the environment.

Expertise you can trust

We've been supplying and installing hard landscaping materials to trade and retail customers since the 1950s. With this wealth of experience, we'll always go the extra mile to help you choose the right materials for your project. We'll source bespoke pieces for you and advise on installation and aftercare.

A one stop shop you can rely on

Alongside our paving collection, you'll find fencing, decking, aggregates and much more in our convenient one stop shop. And with our good stock levels, we deliver promptly (usually within 48 hours, and next day for porcelain and natural stone for Trade Pro customers).

We're always introducing new products throughout the year, so check our website www.kebur.co.uk to see our full product range.

GARDEN MATERIALS

OUR COMMITMENTS TO YOU

Your perfect garden is
our top priority

This means we're open seven days a week so you can visit our showroom and outdoor displays, talk to our friendly team or book a delivery at your convenience...

...and if you have any queries after your purchase we'll always be here to help.

*“
Always ready to help
in any way, deliveries
on time and materials
always first class.
I never go anywhere else”*

PAULINE, TRUSTPILOT, OCTOBER 2019

Bringing the benefits of gardens to our communities

We passionately believe that gardens are good for us and focus our charitable support on improving outdoor spaces for local people.

As well as providing exclusive rates to community groups, every year we donate £2000 worth of materials to a community garden project that is voted for by Eagle Radio listeners.

**Ethical
Trading
Initiative**
For workers' rights.
For better business.

Firmly committed to treating all our people fairly

This includes everyone involved in supplying our products, none more than those supplying our imported natural stone paving.

We strive to ensure that all workers in our supply chain have conditions that meet or exceed the standards in the Ethical Trading Initiative (ETI) Base Code. This means we personally visit production facilities right back to the quarry, and actively work with suppliers on improvements.

Focused on reducing our environmental impact

This year, we're stocking more recycled products than ever, and taking positive steps to minimise our waste and reduce our carbon emissions.

We are proud to sponsor the Blackwater Valley Countryside Trust in their work to improve biodiversity in our beautiful local environment. And we strongly encourage our customers to create wildlife-friendly gardens.

KEBUR
TRADE PRO

HELPING LANDSCAPE PROFESSIONALS KEEP A HEALTHY BOTTOM LINE

Our trade account, Kebur Trade Pro is here to give something back to professional landscapers and designers. Our enhanced service is designed to make life easier and save you money.

BENEFITS INCLUDE:

Exclusive discounts

Next day delivery on natural stone and porcelain

Split trade packs

Loyalty scheme including rebates

Your dream garden

starts here...

Imagine stepping outside on a hot day to a beautifully laid lawn, the sound of birds and the warm feel of paving under foot...

Whether your garden is somewhere to relax in peace, grow your own, or dine al fresco, your hard landscaping is the framework for everything else. Choose the right materials, and you'll enjoy it for many years to come.

“
Finishing touches like walling, cladding and setts will make a huge difference to the overall look.”

POISON IVY GARDEN DESIGN

Planning your space

Start planning your garden by finding inspiration in magazines and online. You'll want to think about where you get the best light at different times of day, and your favourite views and places to be.

A great way to create a feeling of harmony is to choose paving that reflects your building materials or internal flooring. When working out the size of your patio, do allow at least half a metre behind a chair that's pulled out, so you have ample space. And don't forget to define your paved areas. Finishing touches like walling, cladding and setts will make a huge difference to the overall look.

Choosing paving

With such variety on offer, it can give you a much better idea of true colours and textures to see paving on display.

It's also important to read our product guides so you can make an informed decision before you buy (www.kebur.co.uk/product-guides). Ask a professional landscaper or one of our sales team if you have any questions about what is suitable for your location and design.

Samples

We are always very happy to provide samples so you can compare them at home and make the right choice.

Order samples online at
kebur.co.uk/request-a-sample
or call us on 01252 517571

APPEARANCE

This brochure shows approximate shades and details of our paving range. Natural stone can vary in colour tone, and have blemishes, veining or minor chips. These are all unique qualities that add to the stone's character. You may also find slight colour variation between porcelain batches. This is perfectly normal.

BESPOKE SOURCING FOR YOUR SPECIFIC NEEDS

If you need a particular size or product, a bullnose or curved edge to your porcelain or natural stone, our team are on hand to help you create exactly the look you are after. Just ask us about our bespoke sourcing and cutting service.

ICE BLUE ROYALE PORCELAIN WITH THUNDERSTORM
COURTESY OF AJT LANDSCAPING

CONTEMPO PORCELAIN

This wide selection of quality tiles is designed and manufactured to our exacting standards in the ceramic regions of Europe. All tiles are full colour-bodied so the inside colour complements that on the surface.

HARD-WEARING

Our porcelain tiles are made by pressing and firing sand, clay and water to temperatures above 1230oC. This makes them exceptionally hard, with less than 0.5% water absorption and outstanding durability. Our porcelain has great resistance against weather, fading and the impact of acids, chemicals, salts, oils and fertilizers.

INSIDE AND OUT

Many of our designs are also available in a thinner tile. These have a slightly smoother (and still slip-resistant) surface that you can use inside. If you have bi-fold, patio or French doors, this can be a great way to create a feeling of space and a seamless flow from your home to your garden.

CONTEMPORARY APPEAL

With a fully rectified, machined edge, and dimensional tolerances of +/- 0.5%, porcelain tiles can be laid with narrow joints to achieve a clean, modern look. Tiles can look equally stylish when paired with natural stone finishes such as sawn slate setts or porcelain wall cladding (see page 73).

VERSATILE

Choose from a huge variety of designs, textures and colours, from ultra-modern sleek tiles to a natural stone or aged timber effect. For a contemporary look, Urban Great (page 25) blends muted colours with an industrial concrete finish. Or for something more traditional, try Antica (page 17) with its fettle edge or our growing Modulo range (page 33).

- ✓ EXTREMELY STRONG AND HARD-WEARING
- ✓ GREAT RESISTANCE TO STAINS AND FADING
- ✓ ANTI-SLIP FINISH
- ✓ PRECISION-MACHINED
- ✓ LOW MAINTENANCE
- ✓ LIGHT JET-WASH PROOF
- ✓ FULL COLOUR-BODIED

STYLEWOOD ALMOND

SOULWOOD GREY

With their lightly wood-grained surface, Contempo Wood premium Italian tiles have all the look and feel of timber, with the durability, low maintenance and slip-resistance of porcelain.

CONTEMPO WOOD SLEEKWOOD

The rich tones of Sleekwood Ash and Teak are perfect for crafting a luxurious space.

ASH

TEAK

CONTEMPO WOOD SOULWOOD

BOURGOGNE
COURTESY OF BLUEWATER LANDSCAPES

NEVIS GREY
COURTESY OF SRD PAVING

GLACIER
COURTESY OF REDRAC LANDSCAPING

BOURGOGNE

Reminiscent of high quality French limestone, with its veining in warm shades of cream and beige, Contempo Bourgogne brings movement and interest to any garden design. The slightly riven surface varies between each tile, adding character.

BOURGOGNE

GLACIER

Contempo Glacier's mild riven surface and mix of tones, from off-white to icy-grey, recreate the authentic diversity of natural quartzite paving. A great option for brightening up an outdoor space.

GLACIER

NEVIS

Inspired by sedimentary rock, the calibrated streaks and dynamic shading of Nevis give it a varied and characterful appearance. With its subtly textured surface and elongated size format, this is a refined choice that exudes natural charm.

CONTEMPO NATURAL STONE

Carefully sourced to provide exceptional quality and value, our Contempo Natural Stone range offers exquisite examples of sandstone, granite, slate and limestone.

With a range of finishes, shades and size formats, there is a natural stone option to suit every style and budget. We are deeply committed to ensuring that all our natural stone is sourced ethically and work with our suppliers to ensure working conditions meet or exceed those in the Ethical Trade Initiative Base Code.

Natural Stone paving finishes explained...

FINISH	HOW IT IS ACHIEVED	EXAMPLE
BRUSHED	Brushing stone after tumbling produces a smoother finish as the fine stone powder beds into some of the open pores.	ANDHRA GREY LIMESTONE SEE PAGE 61
FLAMED	The flaming process fractures some of the crystals on the surface of the stone, creating a rough texture - great for slip resistance.	NATURAL GRANITE SEE PAGE 48
HANDCUT	Handcut edges will tend to be irregular and are one of the features that adds distinctive natural character.	NATURAL SANDSTONE TRADE PACK SEE PAGE 65
HONED	Honing polishes the surface of a stone to create an even colour tone and a very smooth and flat surface.	EGYPTIAN LIMESTONE SEE PAGE 59
RIVEN	When a block of stone – often slate or sandstone – is split to create slabs, it can produce a riven surface that is textured to reflect the grain of the rock.	NATURAL SANDSTONE TRADE PACK SEE PAGE 65
SAWN	Unlike riven surfaces or handcut edges, sawn edges and surfaces are machine cut to produce regular, clean lines.	SAWN BUFF YORKSTONE SEE PAGE 45
TUMBLED	The mechanical process of vibrating the stone with an aggregate, creates a soft and time-worn feel to the surface or edges.	ASIAN BLUE LIMESTONE SEE PAGE 57

A hard wearing, traditional English stone with a clean contemporary finish.

SAWN BUFF YORKSTONE

SAWN BUFF YORKSTONE

Add an air of sophistication to your garden with this exquisite Sawn Buff Yorkstone, a traditional English stone with a clean contemporary finish. A consistent warm shade with occasional red and brown veining, this stone provides a perfect and understated backdrop to planting. Sawn Yorkstone has a smooth and even-textured finish, is hard wearing and fairly low maintenance.

Sawn Buff Yorkstone paving is supplied in random lengths of a single gauge width of 600mm and 38mm thickness. Available by the square metre and in 12 square metre pallets for excellent value.

COPPER SLATE

NATURAL SLATE

Contempo Natural Slate has a slightly riven surface with sawn edges and each piece has its own natural texture and shade. It is an extremely hardwearing stone which makes it perfect for any patio area.

The three size formats allow a choice of laying patterns, making Natural Slate perfectly suited to traditional and contemporary garden designs alike.

ASIAN BLUE LIMESTONE

ASIAN BLUE LIMESTONE

Contempo Asian Blue is an attractive hard-wearing Vietnamese Limestone in a deep dark blue colour.

Honed and tumbled with sawn edges to create a smooth paving equally at home in a traditional or modern setting.

Relatively uniform in colour with slight shading variations and natural veining, the tumbling process adds to the immense character of this sumptuous paving.

NATURAL STONE TRADE PACKS

We're rightly proud of our ever-popular Natural Stone Trade Packs. They've earned a reputation for superb quality and value.

A convenient 15.3m² mixed size patio pack, with twelve options to choose from, many are also available in individual sizes for added flexibility. All stones have a natural hand-cut finish, except Tandur Grey Limestone which is sawn and tumbled.

We work closely with our suppliers to ensure our Trade Packs meet high quality standards. This means you'll get square corners and a calibrated, consistent thickness to make slabs easier to lay and stronger than thinner alternatives.

NATURAL LIMESTONE

With a choice of five stunning shades to suit a range of garden designs, our Indian Limestones have a subtly textured surface and the Tandır Grey a beautiful tumbled finish. These Trade Packs are an elegant and hard-wearing option that offer outstanding value.

Choose the cool steely tones of Kota Blue, or the warmer shades of Tumbled Tandır Grey. For a traditional worn flagstone look, Antique Yellow Limestone is full of character with its half-honed, tumbled and brushed finish. Always a classic and great value choice, Black Limestone can be laid in a traditional pattern or a uniform size for a more contemporary look.

You've chosen your paving products... **now what?**

Choosing a landscaper

If you need help installing your paving products, make sure your choice of landscaper is well-informed.

THINGS TO REMEMBER...

- ✓ Cheaper is not always better
- ✓ Look for a landscaper who really understands your requirements
- ✓ Plan ahead as good landscapers tend to be busy
- ✓ Ask for details of jobs they have previously carried out and speak to or visit these people
- ✓ Agree on a detailed written description for the work they will carry out and when, including an idea of your budget
- ✓ Choose between at least 3 written quotes if possible
- ✓ Make sure you are agreed on the quantity of materials you need before you order

Landscaping trade bodies usually hold a list of landscapers who are accredited through various checks. The Association of Professional Landscapers has one of the toughest inspection processes in the industry, which covers insurance, health and safety compliance and site visits to check their work is of the highest standard.

THUNDERSTORM PORCELAIN COURTESY OF AJT LANDSCAPING

KEBUR

LANDSCAPE DIVISION

Kebur Landscape Division offers an installation service accredited with the APL and can provide a no obligation quote.

Just call **01252 515050** or visit
www.kebur.co.uk/landscape-division

Ordering and delivery

Once you have measured your space, we recommend adding 10% on to your dimensions to allow for cuts and wastage. Products listed in this brochure are available from stock, usually within 7 days, unless specified. We pride ourselves in quick delivery times and can often deliver the next day.

Please check products carefully on arrival and let us know about any concerns straight away.

See product guides at
kebur.co.uk/product-guides
before you buy and install

INSTALLING YOUR PAVING

- ✓ Always seek professional advice and read the product guide before you buy and install our products, visit www.kebur.co.uk/product-guides.
- ✓ Dry lay the product to check you have the right quantities before you start.
- ✓ Install paving with a full bed of mortar and a suitable sub-base. Use an additional slurry primer on porcelain and certain natural stone such as slate.
- ✓ There may be colour variations between batches of porcelain and natural stone. Mix slabs when laying from more than one pallet to ensure a consistent look.

Equipment

Take great care of personal safety when handling our products. Always use suitable lifting and personal protective equipment.

For larger format paving this may include a vacuum lifter. When cutting our products, always use safety goggles and suitable respiratory protection to avoid inhaling dust.

LAYING PATTERNS

The following are some suggested laying patterns.
For more ideas, see www.kebur.co.uk/laying-patterns.

See product guides at kebur.co.uk/product-guides before you buy and install

TRADE PACK LAYING PATTERN

SUITABLE FOR: natural stone trade packs.

THIRD BOND

SUITABLE FOR: porcelain tiles of more than 800mm. These should be laid with a third bond pattern to reduce variation in the slight contours of the tiles.

TUDOR

SUITABLE FOR: Natural Slate, Modulo Quartz

HALF BOND

SUITABLE FOR: porcelain and natural stone paviours in one size up to 800mm.

STACK BOND

SUITABLE FOR: any square format paviours. A popular choice for porcelain.

RANDOM LINEAR

SUITABLE FOR: natural stone paviours of the same width (eg. Contempo Natural Stone).

CARING FOR YOUR PAVING

All paving products can develop algae and organic growth. You will need to regularly clean and maintain your paving to keep it in excellent condition.

Lighter coloured paving will need more maintenance over time to retain its appearance. This is especially so in shady areas.

Cleaning

Maintain your paving by removing debris regularly. Leaves will stain if left on porcelain or natural stone. Sweep and scrub with a stiff brush and warm soapy water. Pressure washers can be used to remove algae and moss on porcelain and some natural stone. However, they can cause damage over time as the force of water can split small cracks and disturb loose stone or jointing. Specialist cleaners can be necessary for stubborn stains.

Always read the product guide for your paving and never use acid based products for cleaning limestone and certain sandstones. We always recommend testing cleaners on a small area first.

See product guides at
kebur.co.uk/product-guides
before you buy and install

Sealing

While porcelain is naturally hard-wearing and low-maintenance, some types of natural stone benefit from sealing to prolong their life and maintain their characteristics. Pre-sealing stone can inhibit moss and mould growth, and protect against stains, efflorescence, salt and freeze-thaw spalling. It can also help to avoid certain problems during installation.

Some weather conditions such as temperature extremes, rain and direct sunlight are not advisable working conditions for applying sealers.

Kebur offers cleaners and sealers for a range of products and uses. We can also pre-seal your stone with a deep-penetrating sealant, so it is ready to install in any weather.

Ask us for details or see

www.kebur.co.uk/pre-sealing-service

*Sealing stone helps
protect from stains
and water damage*

When applying cleaning and sealing products yourself, always read the label and seek professional advice.
