

Product guide: Contempo Natural Granite

- Appearance:** In all natural stone there will be variations in colour tones, shades and natural markings and they can display blemishes, veining and minor chips. These are natural characteristics and enhance the uniqueness of the product. We always recommend viewing the product before making a decision. You can do this at our indoor and outdoor show areas. We can supply full size samples for an additional cost to help give an impression of how your finished project will look.
- We regret that we cannot refund or exchange products, once they have been installed, on the basis of texture, colour variation or other natural occurring characteristics.
- Sealing and treating:** All natural stone products can weather and develop algae and organic growth, and granite can be prone to picture-framing and resin-staining from brushing and jointing compounds. To prevent this and keep your investment in good condition, we highly recommend pre-sealing Contempo Natural Granite. You can apply a sealant yourself or Kebut can pre-seal your stone for you with Dry-Treat Stain Proof™. This means it is ready to install in any weather and comes with a performance warranty.
- Installation** We recommend that all natural stone is laid on a full mortar bed with a suitable sub-base, taking into account the ground conditions and planned usage. For Contempo Natural Granite we would recommend a slurry primer, or an SBR bond slurry mix applied to the underside of the slab to help with adhering to the mortar. Lay Contempo Natural Granite with the textured face upwards. Contempo Natural Granite should not be butt jointed. We recommend a minimum joint width of 5mm.
- There may be colour variations between batches of slabs. If laying from more than one pallet, mix slabs to ensure a consistent look.
- Maintenance:** We offer a range of sealers and cleaners you can use yourself. Always read the label and seek professional guidance.

If you have any further questions about installing or caring for Contempo Natural Granite please contact one of our sales advisors who will be very happy to help you.
